

Dear M2M Partner

We are happy to send you today again some news regarding CEP and its products.

Company / Product News:

CeBIT - Fair

On its CeBIT Stand in Hanover, CEP AG presented together with Telit the latest product news from the module side

UC864-E and UC864-G	the smallest UMTS module – UC864-E is now available from stock!
GE863 Pro ³	offering a separate ARM9 controller for customer applications
FOTA	FOTA functionality enables customers to download Telit Firmware over the air into the modules

The fair was a great success for us and we would like to thank all of you who visited us there. We were able to address many new customers and to inform our existing customer base of the hottest topics.

Trainings:

The next Telit module training on 10 April 2008 is booked.

The next scheduled training days with the below focus subjects are:

Firmware update over air (FOTA) + General Product Training	Wednesday 11.06.2008
Python Programming Training with practical sessions	Thursday 12.06.2008

Please let us know if you want to participate in those trainings. You only need to care for travel expenses and hotel accommodation. The training is free of charge for all participants.
